

Prayer for China

Dear Lord,

We thank you that China continues to gain more religious freedom. We praise you that China can now print its own bibles and that the church is growing so big!

But Lord we come before you with heavy hearts because of all the Chinese children who never got to be born because of the one-child policy. The newspapers say that this law will be reviewed soon. We ask that You will cancel this law in Jesus' Name and that all children will have the right to life, whether male or female.

Father we pray that Chinese lawmakers will value these precious children's lives just as you value them, and that they will no longer seek to control the population. We pray also that the church in China will continue to grow and evangelize the surrounding nations.

In Jesus' Name we pray,
Amen
